## Press Release

FOR IMMEDIATE RELEASE

Nancy Hoffman, Ben Smyth

(888) 348-2877

### **Sunburst Software Solutions, Inc. to Offer Completely New Certified Payroll Reporting Software Which Integrates With QuickBooks Pro®!**

**February 8, 2001, Somers, MT** - Sunburst Software Solutions, Inc. announces the release of their new Certified Payroll Solution software. Certified Payroll Solution (CPS) is geared toward small to medium-sized contractors (typically less than 100 employees) who are involved with Public Works Projects and have to meet the stringent demands of certified payroll reporting.

This software application interfaces with Intuit's suite of QuickBooks Pro Accounting products. It opens a whole new avenue for users of QuickBooks, as it utilizes the U.S. Department of Labor Forms WH-347 and WH-348 for those states that allow them, and offers custom forms for the remainder of the states - all without having to re-enter or copy data. The generated reports are ready for signature and mailing.

The product has successfully completed rigorous beta site testing and has consistently created accurate reports since last year. Sunburst has launched this release on two websites to support the strong interest this product has generated in the industry: [www.sunburstsoftwaresolutions.com](http://www.sunburstsoftwaresolutions.com) and [www.certifiedpayrollreports.com](http://www.certifiedpayrollreports.com).

Sunburst Software Solutions, Inc. was co-founded by a software programmer and a Certified QuickBooks ProAdvisor, each with 20+ years of experience in their respective fields. They in collaboration have created and overseen the development and release of this exciting new tool.

Sunburst focuses on creating easy to install and easy to use applications for specialized accounting requirements, and has developed this product to answer the needs of the small business, which until now has had extremely limited options. They count on the large user demand to fuel referral and Internet distribution to provide the lowest price to generate broad market appeal.

Sunburst Software Solutions, Inc. is an independent company and is not affiliated with or endorsed by Intuit, Inc.
