CONTRACTOR WORKFORCE REPORTING REQUIREMENTS - The Prime and active subcontractors shall report Monthly Employment Utilization by inputting the total number of work hours for each trade classification (shaded areas). The Prime is responsible for collecting Monthly Utilization Reports from each active subcontractor and submit to the appropriate District EEO Review Officer no later than the 10th of the month. (This report reflects all work performed for the previous month). Failure to provide this information by the 10th of each month may result in suspension of progress reports, or part thereof due under the contract, until such time as the Contractor or subcontractor demonstrates compliance with these items. If no work is performed during the month, contractor/subcontractor must submit a "no work performed" report for the month.
