Certified Payroll Solution

Author: Elaine Marmel

If you are a contractor or subcontractor working on construction projects covered by Federal Davis-Bacon Regulations, you'll be interested in checking out Certified Payroll Solution, because it will make your reporting requirements easier.

Each week beginning with the first week worked on the project, contractors and subcontractors must file Certified Payroll Reports and Statements of Compliance. The federal government requires that you complete Form WH-347 Payroll Certification and Form WH-348 Statement of Compliance; in addition, many states have their own specialized form derived from these standard forms. And, you are required to submit "No Work" payrolls whenever there is a temporary break in your company's work on the project.

Basically, you spend a lot of time completing the forms; you have to determine who to include on the form, and then you need to collect the information and complete the forms.

Certified Payroll Solution automates the task by generating completed payroll reporting forms that are ready to be signed and mailed. Certified Payroll Solution reads data from your QuickBooks company file -- you don't need to copy or re-enter any information. Instead, after Certified Payroll Solution reads your company data, you print out a report for each federally funded construction projects you work on that week. In addition, the EEOC Report Form 1392-A is also included with the program.

The product is easy to use and contains very detailed information about setting up QuickBooks, so that you'll easily be able to generate the appropriate certified payroll forms.

Certified Payroll Solution costs \$349.00 for a single user/one company program. You can get more information about the program at www.sunburstsoftwaresolutions.com or at www.certifiedpayrollreports.com. Or you can call 888-348-2877. Sunburst Software Solutions, Inc. is located in West Charleston, VT.
